Mr. Duckett

S&T Operations Course

1. You are scheduled to speak to the S&T Operations Course of DDP on Monday, May 1, 0940-1030, Room 1A13.

2. [REDACTED] will start the morning talking on importance of S&T in the formulation of intelligence (0900-0930). He will continue his presentation in a stand-by capacity until you arrive from the DCI morning meeting.

25X1A

3. Since most DD/S&T officers (Don Chamberlain, Dave Brandwein, [REDACTED] and others) are also scheduled to address this group, you may wish to restrict the use of vu-graphs to just the organizational type. You talked to this group last November; and as I recall, this is the way you handled it. If I can see you a couple of minutes today at your convenience, we can complete any arrangements for this briefing.

(over)

4. Incidentally, [REDACTED] asked me to express his own appreciation and also that of the students in the course who are tremendously impressed that you are considerate enough to give up your time to talk to them.

25X1A

5. Security level is SI.
